ISUOG Approved Courses for ULTRASOUND

StudyULTRASOUND offers ISUOG-approved systematic courses to help and support medical aspirants and professionals to understand the ultrasound machine and to interpret the scan results rightly. Our hybrid courses are first of its kind in this segment to get ISUOG approval.

As ultrasound scanning is an inevitable part of examination of the fetus (inside a woman's uterus), uterus and ovaries; skill enhancement in ultrasound will help the OBG to become experts in their profession and thereby reach better career. Our courses are prepared and designed by an expert panel of mentors consisting of renowned OBG specialists who are experts in the field from across the globe.
