Build Your Dream Career
in Radiology with our
**Two Years
Advanced Clinical
Program in FRCR**

www.studymedic.com

StudyMEDIC offers a well-packed 2 years Advanced Clinical Training Program in FRCR which will improve the clinical skills of the aspirants and help them advance in their profession. The program hones the skills of the aspirants by providing them clinical exposure and experience at top multi-specialty and super-specialty hospitals. If you are seeking memberships in the Royal College of Radiologists, our exclusive clinical program is just what you need.

What do we offer?

Training at Top Multi-Speciality Hospitals: Experience comprehensive training at leading multi-speciality hospitals and unlock your potential.

Option for Candidates to Choose the Location: Tailor your learning journey by choosing your preferred training location.

Clinical Rotations in Different Departments: Expand your expertise in radiology with varied FRCR departmental experiences via clinical rotations.

Hands-On Training to Hone Your Skills: Sharpen your radiology skills through hands-on training opportunities.

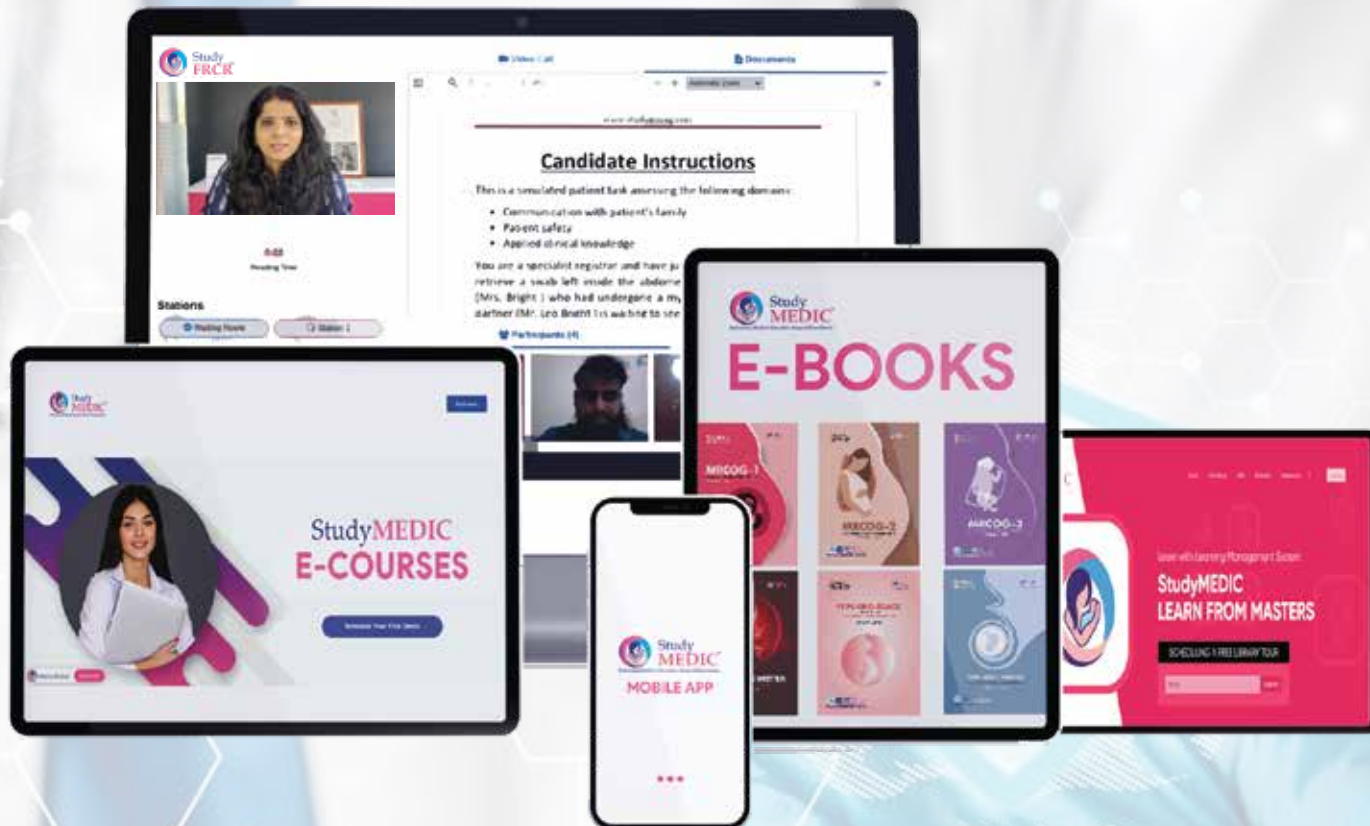

Senior Consultants and Certified FRCR Experts to Guide You: Learn from senior consultants and FRCR certified professionals.

Exposure with the Latest and Modern Equipment: Stay ahead with exposure to cutting-edge modern radiology equipments.

Gain Valuable Clinical Experience: Acquire valuable clinical skills for uplifting your career in Radiology .

Attain Fellowship of Royal College of Radiology (FRCR): Elevate your professional status by joining the ranks of respected radiology professionals who've done FRCR.

Attractive stipend: Students not only get an exposure at top hospitals but also will get an attractive amount as stipend. In short, it offers you a chance to earn while you learn.
