

Rise above with
FRCR
The gold standard in
Clinical Radiology!

WE ARE ACCREDITED BY:

Commence your journey with **StudyFRCR** The ultimate FRCR prep hub!

Dreaming of becoming a leading clinical radiologist in the UK, transforming patient care with advanced imaging techniques? The Fellowship of the Royal College of Radiologists (FRCR), recognised by the General Medical Council (GMC), is an excellent pathway to achieving this prestigious goal.

The FRCR, globally recognised as the gold standard qualification in clinical radiology, is awarded after a rigorous three-part examination: FRCR Part 1, Part 2A, and Part 2B, conducted by the Royal College of Radiologists.

If you aspire to take on senior roles, achieve GMC registration, and build a thriving career in the NHS as a clinical radiology expert, then earning the FRCR is the right path for you.

StudyMEDIC

Revolutionising global medical education

StudyMEDIC, the sole accredited partner of **EBCOG** and provider of **ISUOG**-accredited ultrasound courses, is the leading medical education training platform accredited by international organisations and bodies like **CPD**, **AAA**, **ACTD**, **IAO**, and more. Founded in 2016 and headquartered in Qatar, the organisation offers training and courses for a bunch of globally renowned medical memberships, fellowships, skill enhancement, medical entrance, and licensing exams. With a unique training structure and a globally recognised panel of mentors with decades of clinical and teaching experience, our comprehensive and well-structured courses are designed to empower candidates with the essential knowledge and skills needed to build their dream careers internationally.

WE ARE ACCREDITED BY:

StudyFRCR - The most trusted partner in your FRCR Part 1 journey!

As a proud sister concern of StudyMEDIC, StudyFRCR is the go-to destination for those aspiring to the coveted fellowship of the RCR. We provide well-organised short and long-term courses specifically designed for FRCR Part 1 candidates, featuring an impressive track record of success. With expert guidance from the world's top mentors and a broad array of study materials, you will be well-prepared to tackle the exam on your first attempt.

What awaits you after FRCR?

Global recognition and credibility

One of the biggest advantages of the FRCR qualification is its global recognition, respected not only in the UK but also internationally. With FRCR, you are immediately acknowledged and given credibility as a skilled expert. Your competence is recognised by employers, colleagues, and patients, opening up new opportunities and advancing your career.

Diverse career prospects

FRCR provides you access to senior-level NHS positions, allowing you to start your career journey at ST3+ level or higher. With FRCR qualification, you become a top candidate for consultant radiologist roles, academic faculty positions, research opportunities, and leadership positions at institutions across the globe.

Heightened expertise

By evaluating your understanding of anatomy, physiology, imaging methods, and radiographic interpretation, the FRCR exam elevates your skill level. Through this comprehensive assessment, you gain new insights and advanced skills, enhancing your proficiency in the field.

Greater earning potential

With FRCR qualification, you increase your marketability and earning potential in both local and international job markets. Many employers recognise this qualification as a testament to your dedication and expertise, often leading to higher salary packages.

Networking and collaboration

Becoming a member of the RCR connects you to a global community of over 16,000 radiology professionals. The college offers various events, conferences, and resources that can support your ongoing professional development and keep you updated with the latest advancements and research in the field.

GMC registration pathway

International medical graduates (IMGs) must register with the GMC to practise medicine in the UK. With the FRCR qualification, you can secure GMC registration to work as a radiologist. Additionally, FRCR supports entry onto the Specialist Register through the CESR (Certificate of Eligibility for Specialist Registration) route, enabling you to take up substantive (permanent), fixed-term, or honorary NHS consultant posts.

FRCR Part 1

The first milestone in your FRCR journey

FRCR Part 1 is the foundational examination in the journey toward becoming a Fellow of the Royal College of Radiologists. The exam evaluates your knowledge of the physical principles that underpin diagnostic medical imaging and of the anatomy needed to perform and interpret radiological studies.

FRCR Part 1: A snapshot of the exam

The FRCR Part 1 exam consists of two separate modules: Physics and Anatomy, each held on a different day. These exams typically take place in March, June, and September of each year.

FRCR Part 1: Physics module

Mode of exam: Computer-based test

Number of questions:
40 Multiple choice questions

Duration of the exam: 2 hours

FRCR Part 1: Anatomy module

Mode of exam: Computer-based test

Number of questions:
100 image-associated questions

Duration of the exam: 90 minutes

Eligibility for FRCR Part 1

- Must hold a primary medical qualification that is recognised by the GMC
- Must hold a formal clinical radiology training post, or have held one in the past.
- No minimum period of clinical experience or clinical radiology training required.

Why **StudyFRCR** is your premier choice for FRCR Part 1 success

Live sessions led by 5+ FRCR-qualified expert mentors

A global team of 5+ FRCR-qualified expert mentors will guide you through live and interactive sessions. Their invaluable guidance, backed by years of teaching and clinical experience, will be instrumental in your FRCR Part 1 preparation journey.

Thorough coverage of FRCR Part 1 syllabus

StudyFRCR makes sure that you thoroughly cover all exam essentials in accordance with RCR standards regardless of the duration of the course, ensuring you are fully prepared for the exam.

Customised module-specific preparation

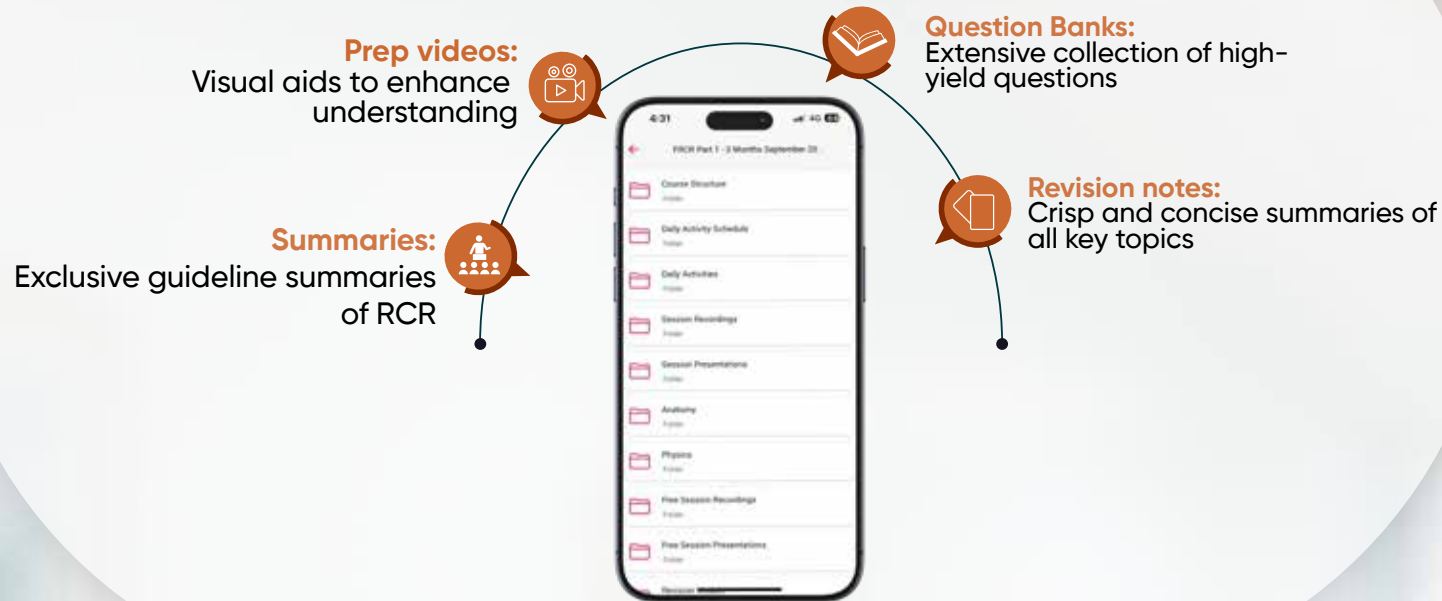

Whether you are focusing solely on Physics, Anatomy, or both, we offer systematic training to meet your specific needs. Enjoy separate sessions for each module, ensuring you get the precise support you need.

StudyMEDIC LMS with vast amount of learning materials

You have the opportunity to access StudyMEDIC's extensive library of study materials integrated with cutting-edge learning management system (LMS). Enjoy high-quality resources, including question banks, prep videos, and RCR guideline summaries, all available in module-wise format and designed to your unique learning style.

What you get through the StudyMEDIC course library?

Comprehensive mock test series

Assess your progress with time-bound regular mock exams featuring high-yield questions. These realistic simulations help you to identify weak areas and refine exam taking skills.

Study group with mentor support

Join the StudyFRCR study group for interactive learning, supported by mentors and the back-end team. Here, you can enhance your preparation with self-practice questions and one-liner activities led by mentors.

StudyMEDIC Mobile App

Stay connected with your studies wherever you are using the StudyMEDIC Mobile App. Access all course materials anytime, anywhere, to keep your preparation on track and efficient.

Tackle FRCR Part 1 with StudyFRCR

Expertly designed courses for your success

If you are a passionate medical professional with dreams of achieving the prestigious Fellowship of the Royal College of Radiologists, then look no further than StudyFRCR. We offer systematically crafted courses designed to equip you with the knowledge and skills needed to excel in the FRCR Part 1 exam. Choose the right course and crack the exam with flying colours.

Regular course

Duration: 3 months

12+ live, interactive sessions

Thorough coverage of FRCR Part 1 syllabus

Question bank filled with 550+ high-yield Qs

Daily study group activities with 600+ Qs

Exam essential revision course

Duration: 6 weeks

6+ live sessions covering all exam essentials

Revision-focused training program

Question bank filled with 550+ high-yield Qs

Daily study group activities with 300+ Qs

Introducing our FRCR Part 1 mentors

Dr. Jyotsana Pramod

Mentor

MBBS, DCH, FAGE, DMRE
(Radiology), ARDMS (USA),
FRCR (UK), EDiR

Dr. Shibina Fazil

Mentor

MBBS, DNB, MNAMS,
FRCR (UK), EDiR

Dr. Ayush Agarwal

Mentor

MBBS, MD, FRCR

Dr. Farheen Razvi

Mentor

MBBS, MD, FRCR (Part 2A)

Voices of victory **Hear from our achievers!**

Dr. Payal Senyal

I'm really happy that I have chosen Study-FRCR. Thanks to all our mentors for helping me to perform my best in the FRCR Part 1 exam. Thank you so much.

Dr. Fazil Mohammed

Thanks to StudyFRCR's regular course, I passed the FRCR Part 1 exam on my first try. The guidance and support provided by the mentors were crucial in my exam preparation journey. Thank you StudyFRCR for the excellent preparation materials.

Dr. Tripti Sharma

I was overwhelmed initially, but StudyFRCR's structured approach made all the difference. The podcasts and recorded sessions were perfect for my busy schedule. I could revisit complex topics anytime, making my study process much smoother. Thanks to StudyFRCR.

Dr. Alex George

A big thank you to all the mentors at StudyFRCR. The live sessions were a game-changer for me. The detailed explanations and interactive study groups made all the difference. I felt supported every step of the way and I'm so grateful for the experience.

Dr. Rishabh

I felt lost before joining StudyFRCR. The course not only covered the syllabus comprehensively but also equipped me with the confidence to face the exam. Without your help this wouldn't have been possible. Thank you...
