StudyMEDIC Revolutionising global medical education

StudyMEDIC, the sole accredited partner of **EBCOG** and provider of **ISUOG**-accredited ultrasound courses, is the leading medical education training platform accredited by international organisations and bodies like **CPD**, **AAA**, **ACTD**, **IAO**, and more. Founded in 2016 and headquartered in Qatar, the organisation offers training and courses for a bunch of globally renowned medical memberships, fellowships, skill enhancement, medical entrance, and licensing exams. With a unique training structure and a globally recognised panel of mentors with decades of clinical and teaching experience, our comprehensive and well-structured courses are designed to empower candidates with the essential knowledge and skills needed to build their dream careers internationally.

StudyULTRASOUND: The Best Route to Mastering Ultrasound in Abdominal and Pelvic Imaging

StudyULTRASOUND, a sister concern of StudyMEDIC Academy, offers high-quality training programs designed to support medical professionals in mastering ultrasound in abdominal and pelvic imaging. Our hybrid courses, crafted by an expert panel of mentors, offer you the chance to combine theoretical and practical experience. Join StudyULTRASOUND to expand your scope of practice and become an expert in abdominal and pelvic imaging.

Who can Join ?

Opportunities Await for **Ultrasound** Experts in Abdominal and Pelvic Imaging!

Growing Global Demand

The demand for skilled abdominal and pelvic ultrasound experts is increasing as diagnostic imaging becomes more essential worldwide. By developing a career in this highly sought-after field, you can be recognized and valued by employers and healthcare organizations globally.

Advanced Diagnostic Skills

By equipping yourself with the latest diagnostic techniques, you can significantly enhance your skills in various areas. You'll learn how to operate an ultrasound machine with confidence, effectively manage patient communication, and write comprehensive reports. This will help you to diagnose and identify internal organ pathologies, including both benign and malignant conditions. Overall, you will gain a clear understanding of how to implement ultrasonography in patient management.

Greater Earning Potential

Holding a certification in abdominal and pelvic ultrasound sets you apart in the competitive healthcare landscape. Due to the significant lack of experts in this area, you will often receive higher recognition and improved pay, both globally and locally.

Networking Opportunities

By engaging with a diverse group of professionals in the field of abdominal and pelvic ultrasound, you can stay informed about the latest trends and advancements, ensuring you remain at the forefront of your profession. These connections can lead to valuable mentorship opportunities, collaborations, and potential job placements, further enhancing your career growth.

How StudyULTRASOUND Courses in Abdomen and Pelvic Stand Out

Live Sessions with Expert Mentors

Our team of expert professionals, with years of clinical experience in performing various ultrasound imaging techniques, offers you live, interactive virtual sessions. Their extensive teaching and clinical expertise provide you with the best guidance throughout the course.

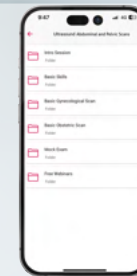

Comprehensive Training Aligned with International Standards

From fundamental techniques to advanced procedures, you will explore a diverse range of ultrasound topics, such as the physics of ultrasound, Doppler imaging, sonography of the kidney, vascular ultrasonography and more. This training is thoroughly aligned with the curriculum of the American practice guidelines for ultrasound in medicine.

Course Library with High-Quality Learning Materials

StudyULTRASOUND offers a treasure trove of high-quality learning resources, including reading materials, case studies, session recordings, case scenarios with images, flashcards, podcasts, videos, and much more. These resources will prepare you to handle any challenge with confidence.

Hands-On Training via Optical Simulation Technology

Through our new innovative software, we offer a training and education system based on optical simulation. This technology allows each student to learn at their own pace, without pressure and without exhausting the patients. In our education labs, instructors will receive reports detailing the results of each practice session.

Study Group Supporting Interactive Learning

Get access 24/7 to the StudyULTRASOUND Telegram group, where aspirants can review various ultrasound images and engage in discussions with their mentors and peers. This collaborative environment fosters skill enhancement and performance improvement.

Daily Activities with Mentor Guidance

Each module includes a set of SBAs with explanations. Candidates will have access to these single best answers before the session to brainstorm and prepare for the live discussions, providing an opportunity to ask questions and clarify doubts.

Mock Exam Programs

Assess your progress with time-bound live mock exams that cover all key ultrasound concepts. These exams will help you identify areas for improvement, ensuring a thorough understanding. Final mock exams at the end of the course will qualify you for certification. You will have three attempts, and the highest score will be recorded.

Earn CPD Credits

Enhance your skills and knowledge in ultrasound imaging while earning Continuing Professional Development (CPD) credits from StudyMEDIC. By achieving the certificate of attendance, you can further develop your career and demonstrate your commitment to professional growth.

StudyULTRASOUND LMS & Mobile App

Enjoy flexible learning opportunities with our user-friendly mobile app and Learning Management System (LMS). Access content anytime, anywhere, and review lecture slides and recorded sessions as often as needed.

Courses We Offer

Ultrasound in Abdomen & Pelvic

Regular Course - 3 Regular Course

10 Live sessions led by expert speakers

Step-by-step skill development program

Follows American guidelines of Ultrasound in Medicine

Education Labs with optical stimulation technology

Personalized guidance & image discussions

Daily study group activities

High-quality learning materials

Mega mock exam practice

Earn StudyMEDIC CPD points

StudyMEDIC LMS & Mobile App support

Our Panel of Experts

Dr. Hebatallah

MBBCH, Masters Degree (Obs & Gynec),
MRCOG Part 1, BLS
Course Director

Dr. Jyotsana

MBBS, DCH, FAGE, DMRE(Radiology),
ARDMS (USA), FRCR (UK), EDiR
Mentor

Dr. Farheen

MBBS, MD Radiology &
Nuclear Medicine, FRCR Part A,
FRCR Part B (pursuing)
Mentor

Dr. Kajal Tatakur

Diploma in Radiology and imaging
technology, BSc Radiology and Imaging
technology, ACLS, BLS, Masters (Radiology &
Imaging technology), Phd (pursuing)
Mentor
