StudyMEDIC

Redefining Medical Education

StudyMEDIC is a pioneering force in the realm of medical education, born from the intersection of visionary innovation and a steadfast commitment to address the pressing challenges within the healthcare industry. Founded in 2016, the organization was conceived as a solution to the hurdles faced by aspiring medical professionals, guided by the experiences of our visionary founder, who encountered formidable barriers while navigating various medical memberships and fellowship examinations.

Driven by a mission to revolutionize medical education, StudyMEDIC stands as an inclusive platform dedicated to empowering and nurturing the next generation of healthcare practitioners. Our goal is to provide a comprehensive ecosystem that facilitates global medical education, accessible to learners worldwide regardless of geographical constraints. We strive to achieve this by offering a diverse range of accredited courses and memberships, enabling individuals to pursue higher medical education at affordable costs.

StudyMEDIC: Pioneering force in medical education

Challenges Identified

Lack of technologically advanced providers.

Inadequate learning materials for professionals.

Fragmentation of global medical specializations.

Unstructured medical learning solutions.

Limited hands-on experience for professionals and students.

Lack of support and guidance.

Solution-Oriented Approach

Technological Integration:
Advanced e-learning, simulations.

Comprehensive Learning Resources:
Addressing material inadequacy.

Diverse Specializations:
Consolidating expertise under one roof.

Structured Learning Solutions:
Organized curriculum for better learning.

Practical Exposure:
Initiatives for hands-on experience.

Mentorship & Support:
Providing guidance for professionals and students.

StudyMEDIC's Mission

Revolutionize medical education

Empower next-gen healthcare practitioners.

Create a comprehensive, inclusive platform.

We Are Accredited By

The accreditation by the International Society of Ultrasound in Obstetrics & Gynaecology (ISUOG) remains another feather on StudyMEDIC's Cap. Our Ultrasound in Obstetrics and Gynaecology courses are now accredited by ISUOG. With this accreditation, successfully completing our course will enable the students to acquire ISUOG membership for free for one year.

In a first-ever global academic partnership, EBCOG signed a partnership with StudyMEDIC in February 2022. As per the five-year long agreement, StudyMEDIC will remain the sole partner to promote EFOG courses across the globe and will conduct courses in association with EBCOG. EBCOG professors and StudyMEDIC mentors will form the panel of faculty. The course curriculum is reviewed and approved by EBCOG.

StudyMEDIC is a CPD Member since 2020. The membership and accreditation remain a testimony to our excellence and quality. The membership is provided after thoroughly analysing and scrutinizing the quality of the courses. It is an internationally accepted membership and accreditation and hence adds lots of value to our courses.

The American Association of Continuing Medical Education -AACME remains a global benchmark for CME standards. StudyMEDIC is now accredited by AACME and this accreditation remains yet another specimen of top quality for our courses. The accreditation also approves that our courses are valid and that they follow the international standards in medical education.

StudyMEDIC is officially endorsed by the International Accrediting Organization (IAO). StudyMEDIC has successfully met IAO standards for global best practices in organizational management, academic management, and institutional performance and is now a fully accredited member of International Accrediting Organization.

The accreditation by the American Council of Training and Development (ACTD) is another significant milestone for StudyMEDIC. StudyMEDIC has met the ACTD accreditation requirements in accordance with internationally recognized standards and general requirements for professional training with the ACTD standards of accreditation. StudyMEDIC is now part of the ACTD global network of accredited institutions.

The American Accreditation Organization (AAA) accreditation is awarded to institutions that uphold high standards of education and training. StudyMEDIC's AAA accreditation reflects our commitment to excellence, continuous improvement, and high-quality learning experiences, showcasing organization's ability to meet the evolving needs of students and professionals.

The Global Presence of StudyMEDIC

First Med EdTech Organization in Qatar

Having set its corporate office at Qatar, StudyMEDIC is the first Med EdTech firm in the country. The organization, founded with a mission and vision to create better clinicians across the globe, is known for incorporating the cutting-edge technologies for delivering medical education. We aim to become a one stop destination for medical education and with this we strive to address and eradicate all forms of issues faced by medical aspirants including their financial, regional and geographical boundaries.

Regional Offices in

India & Pakistan

StudyMEDIC Academy has regional offices in India and Pakistan. The Indian regional offices are set in Kerala & Bengaluru. The Pakistan operational office StudyMEDIC SMC Pvt Ltd is set in the heart of Lahore. Both of our regional offices remain keen on helping the medical aspirants in India and Pakistan by providing them easy access to a well-refined and most polished study materials and resources.

StudyMBBS

The **MBBS** journey is both challenging and rewarding, demanding a robust academic foundation, clear understanding of complex concepts, and preparation for a global medical career. **StudyMBBS** is designed to empower students by providing structured learning resources, expert guidance, and tools to help them excel in their academics and beyond. This program bridges the gap between theoretical knowledge and practical application, making it a must-have for every aspiring doctor.

Key Features of StudyMBBS

Comprehensive Curriculum Support

Covers all MBBS subjects across four years, aligned with the National Medical Commission (NMC) guidelines, ensuring a complete academic foundation.

Diverse Learning Resources

Access to high-yield video lectures, 3D Anatomy & Case Studies, structured notes, flashcards, quizzes, detailed case analysis, and revision materials tailored to the MBBS curriculum.

Expert-Curated Content

Learning materials developed by experienced MBBS mentors to provide clinically relevant, exam-focused, and high-quality content.

Performance Tracking Tools

Advanced analytics to monitor progress, identify strengths & weaknesses, and set clear academic goals.

Guidance for International Exams

Comprehensive support for UK, US, and European board membership exams such as USMLE, PLAB, and others, including application assistance and interview preparation.

Soft Skills Development

Workshops on communication, medical ethics, patient empathy, and leadership to prepare students for professional practice.

Interactive Learning Experience

Engaging live classes, subject introductions, and concept-explanation videos to simplify complex topics and offer personalized mentorship.

Placement Assistance

Dedicated career support to help students secure promising placements in top healthcare institutions globally.

Career Consultation and Guidance

One-on-one counseling sessions to explore career options, build professional CVs, and prepare for residency applications worldwide.

24/7 Learning Access

Flexible access to resources anytime, anywhere, to fit diverse learning schedules and needs.

ALLIED HEALTH

In the ever-evolving field of healthcare, **Allied Health Sciences** plays a pivotal role in complementing medical professionals and enhancing patient care. **StudyMEDIC** offers a range of specialized programs tailored to empower healthcare aspirants and professionals with the skills and knowledge to thrive in dynamic clinical and pre-clinical settings.

Our programs are crafted in alignment with leading healthcare & educational standards, equipping candidates with theoretical expertise, practical skills, and career-ready capabilities to excel in the healthcare industry.

Program Details

Programs Offered:

- B.Sc. Anesthesia Technology
- B.Sc. Cardiac Care Technology
- B.Sc. Medical Laboratory Technology
- B.Sc. Radiotherapy Technology
- B.Sc. Imaging Technology
- B.Sc. Respiratory Care Technology
- B.Sc. Renal Dialysis Technology
- Bachelors in Public Health
- Master in Clinical Psychology
- Advanced Certification Courses
(Basic Life Support, ACLS, Pre-Hospital Trauma Life Support)

Specialized Training Areas:

- Emergency and Trauma Care
- Diagnostic Skills (ECG, USG, Imaging)
- Critical Care and Obstetrics
- Public Health Administration

Key Features of the Programs

• Comprehensive Curriculum

Programs designed to meet university and industry standards, ensuring holistic development in allied health sciences.

• Blended Learning Approach

Combines online modules, interactive e-learning, and practical hands-on training for effective learning outcomes.

• Clinical Exposure

Extensive hospital-based training and internships with leading healthcare providers for real-world experience.

• Global Career Preparation

Incorporates language training, professional communication, and certifications for international healthcare placements.

• Advanced Skill Development

Workshops on cutting-edge technologies like ultrasound, diagnostic imaging, and emergency response techniques.

• Career and Placement Support

Dedicated placement services connecting learners with hospitals, clinics, and healthcare organizations, along with resume building and interview preparation.

• Digital Learning Tools

Access to e-portfolios, clinical logbooks, and simulation-based learning modules for continuous skill tracking.

How These Programs Benefit Candidates

- 1. Career Advancement:** Gain specialized skills that are highly sought-after in the global healthcare industry.
- 2. Hands-On Expertise:** Build confidence & proficiency through extensive practical exposure in hospital settings.
- 3. International Readiness:** Prepare for global healthcare challenges with certifications, skill training, and placement support.
- 4. Lifelong Learning:** Stay updated with the latest trends in healthcare technology and patient care practices.
- 5. Professional Growth:** Develop critical soft skills such as communication, teamwork, and leadership essential for healthcare professionals.

Together WE GROW

StudyMEDIC's

Collaboration With OC Academy!

Envisioning a future where all medical aspirants get the best training to advance their careers and improve patient care, StudyMEDIC has collaborated with OC Academy, India's leading upskilling platform for doctors. By joining hands with OC Academy, StudyMEDIC aims to achieve wonders together, providing MBBS graduates the prestigious Clinical Fellowship programs integrated with Royal College memberships.

This advanced two-year training program is designed for MBBS graduates who are looking to hone their theoretical knowledge and gain extensive hands-on experience in their chosen specialty.

By gaining clinical experience at leading hospitals in India with expert guidance, participants can attain globally recognized Royal College memberships from the UK, turning them into expert clinicians.

SALIENT FEATURES OF StudyMEDIC!

30K+ hours of study materials for a wide-range of premier medical exams.

200+ passionate & highly talented mentors to provide scholarly guidance.

Trained **1 Million+** Medical Professionals

100K+ students have cleared their medical exam with StudyMEDIC.

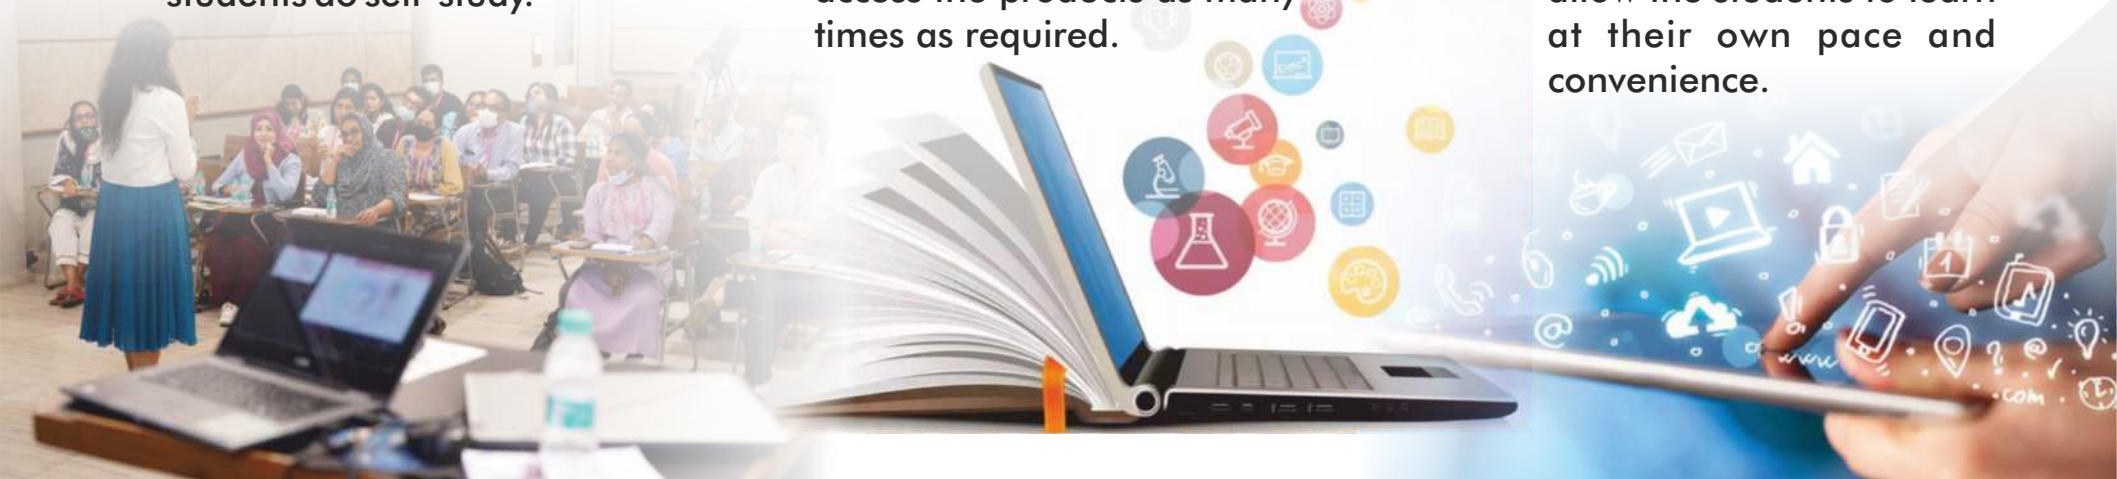

Exclusive e-courses help students do self-study.

Provision for the students to access the products as many times as required.

Digital learning products allow the students to learn at their own pace and convenience.

StudyMEDIC e - LEARNING PLATFORMS REINVENTING MEDICAL EDUCATION DIGITALLY

StudyMEDIC has literally reinvented the medical education with our bunch of digital learning products such as StudyMEDIC Mobile App, LMS, OSCE App, E Courses and E Books. Our digital products make learning available at your fingertips. In short, StudyMEDIC has everything in its disposal to ease your preparations and thus StudyMEDIC remains your best learning partner.

StudyMEDIC Mobile App : One of the most preferred options for any premier medical aspirant to pursue their preferred course with ease; StudyMEDIC Mobile App opens up a diversified universe of study materials at your fingertips with just a click. StudyMEDIC Mobile App is loaded with a bunch of highly attractive features which makes learning a pleasure and a simpler one loaded with a pack of high-quality study materials, StudyMEDIC Mobile App helps students prepare well for their premier medical membership and fellowship exams. The App contains the entire syllabus of various courses under one roof and thus remains the best choice for premier medical aspirants.

StudyMEDIC LMS : StudyMEDIC LMS is a fully customised and secured Learning Management System which will give medical aspirants an all-new mode of digital learning. The system supported with the most advanced technology will help students access their study materials and course products at their fingertips in their preferred formats like videos, summaries, audio podcasts, question banks and so on. With all these top-notch features, StudyMEDIC LMS remains one of the key digital products of StudyMEDIC that will redefine digital mode of Medical Education.

StudyMEDIC OSCE App: Structured as per the real exam pattern and following the time frame, StudyMEDIC OSCE App offers a real-like exam experience. It is one of the most-preferred options for premier medical aspirants to practice and get a real feel of the any OSCE exam prior to the actual exam.

StudyMEDIC e-Courses: StudyMEDIC E Courses remains one of the best options for self-preparation. Our e courses are well-structured and covers the entire syllabus of the exam as per the exam issuing authority like RCOG for MRCOG and RCPI for MRCPI. StudyMEDIC offers e-courses for various courses like MRCOG, EFOG-EBCOG, MRCPI, FCPS and more e courses are under the pipeline.

StudyMEDIC e-Books : If revision and reference are two key things that you are looking for, then StudyMEDIC e-Books will remain the best option any premier medical education student can stick on. Our e-books are the first in the industry and they stay highly useful for students to prepare for any premier medical exam.

StudyMEDIC E- Portfolio: StudyMEDIC provide a dedicated space for trainees to log all evidence of their experiences, competencies, and courses throughout their entire medical journey. This comprehensive platform enhances the learning and professional development of aspirants by building a customized E-Portfolio that reflects their unique identity, aspirations, and accomplishments. By offering a robust set of features and tools, StudyMEDIC empowers students to showcase their achievements, and accelerate their career growth.

e-Portfolio

How to track the learning progress if they aren't clearly registered somewhere? How could some experts help the medical aspirants and guide them with the right feedback unless they come to know where the student stands?

StudyMEDIC e-Portfolio is a brand-new initiative of StudyMEDIC to help the medical aspirants to keep a perfect track of their career and learning advancements.

Many of the students do multiple courses simultaneously but lose their momentum in between as there are no proper records of what they have covered or how much more to achieve. Our e-Portfolio will solve this.

In a broader sense, e-Portfolios can help students to get a clear idea of where they stand in the learning process. It also gives insights to them about the distance to be covered to reach the goal.

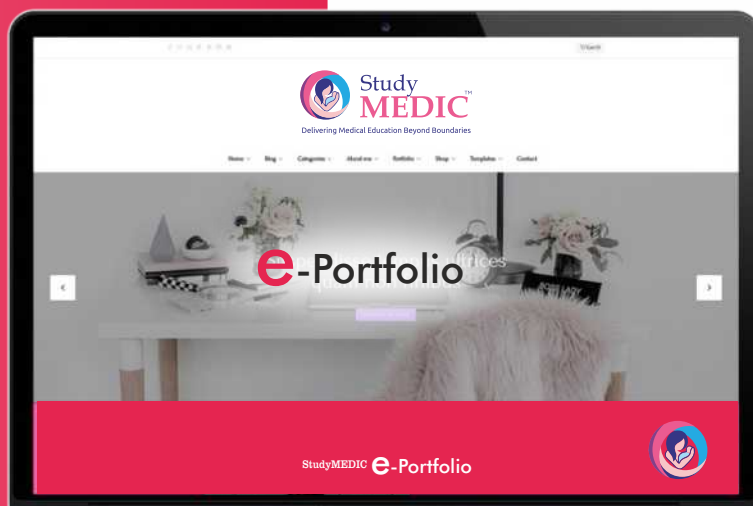

Why e-Portfolio?

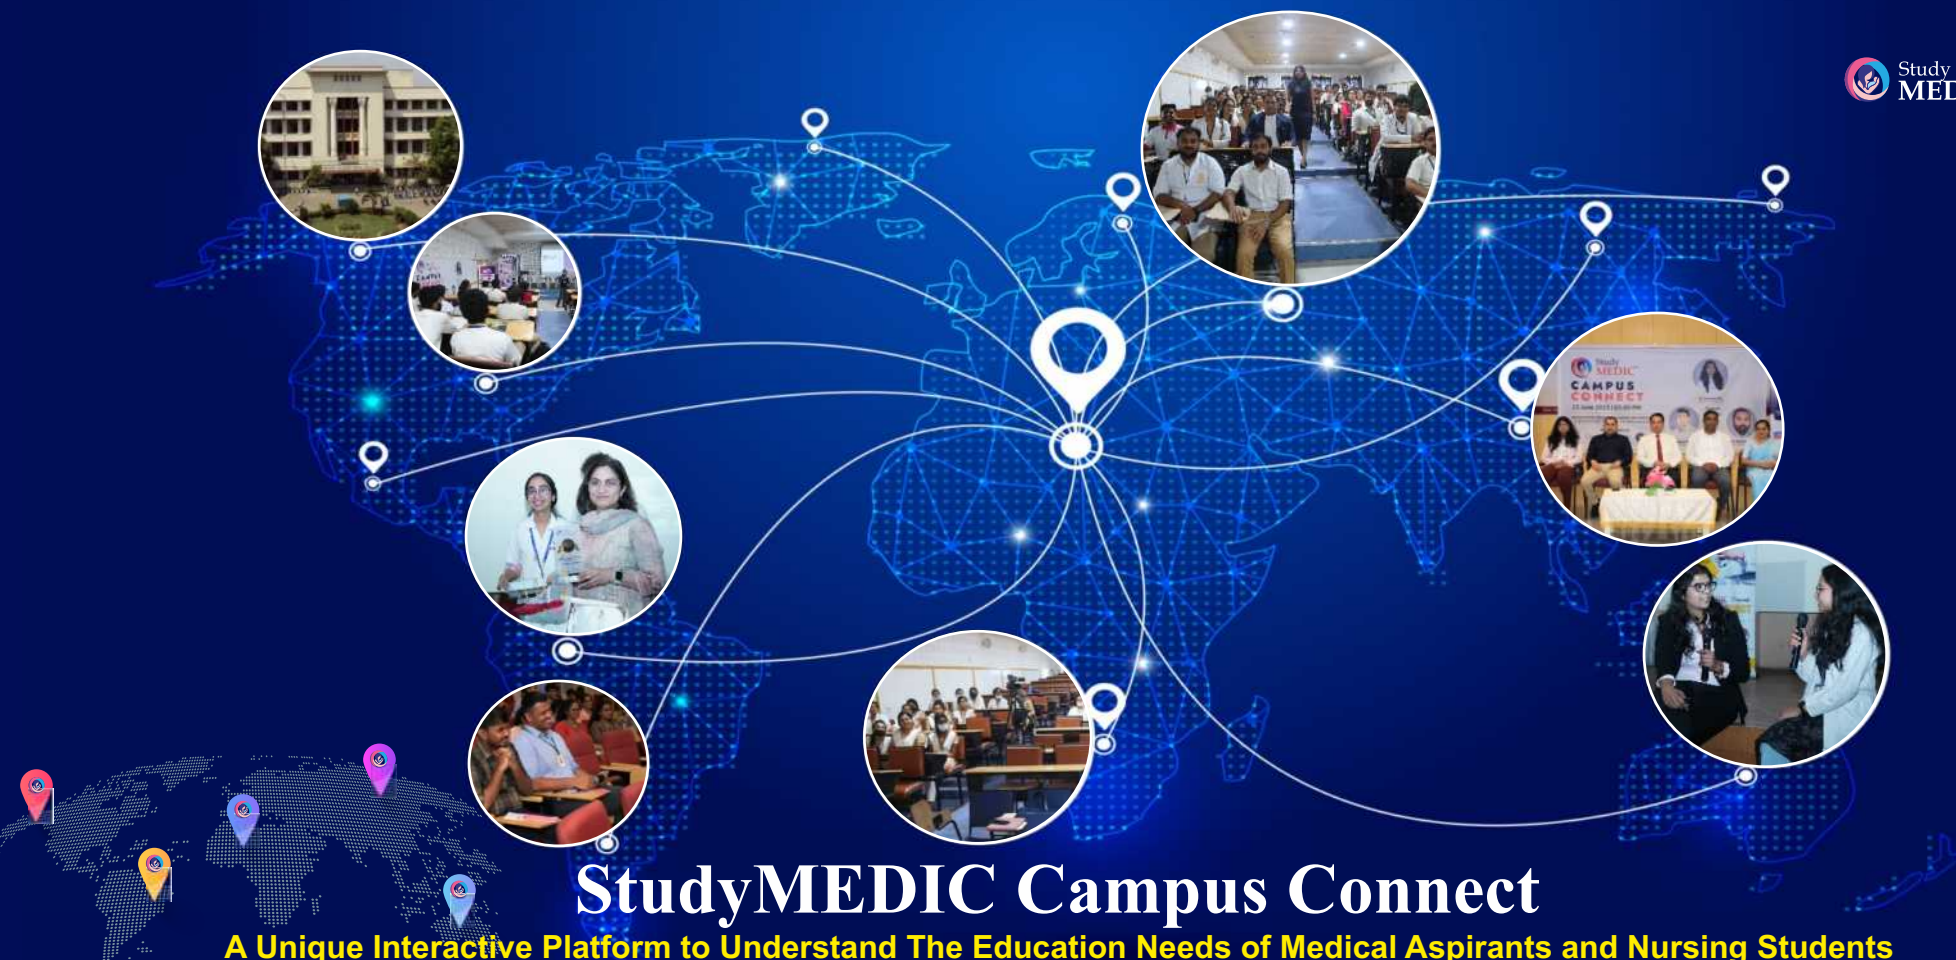

StudyMEDIC e-Portfolio is loaded with a bunch of benefits. Medical students can recognize, record, reflect, assess and validate their learning process. In addition, they can also use their e-Portfolios to plan new courses.

Each step in the learning process is important. Understanding of the same is very much essential for those who support you with the learning as well. StudyMEDIC Clinical Programs of two years is closely connected with the e-Portfolio. Students will be able to use this digital portfolio with all other Royal College Membership & Fellowship Programs and European Board Programs as well.

Medical professionals can use the e-Portfolio on StudyMEDIC to showcase their skills, qualifications and milestone achievements. The e-Portfolio will give you a complete picture of one's qualifications and their medical accomplishments.

The medical and healthcare organizations can identify one's growth in training and professional career development using the e-Portfolio. Students who are doing any course with StudyMEDIC can create and make use of this e-Portfolio to tell the world 'How well they are equipped with advancing their learning.'

StudyMEDIC Campus Connect

A Unique Interactive Platform to Understand The Education Needs of Medical Aspirants and Nursing Students

Quality resources and expert guidance are vital to succeed in the world of medical education. StudyMEDIC has come up with a unique initiative called 'Campus Connect' to listen, understand and to deliver the needs of the medical students.

The primary goal of StudyMEDIC Campus Connect is to get in close touch with the aspiring medicos and show them the right track. This programme aims at understanding the educational needs and wants of medical students and to provide mentorship, guidance and support which will help them enhance their medical career options nationally and internationally.

The program features a range of informative sessions and interactive workshops covering various topics related to medical education and medical career development. We look forward to providing valuable

resources and support to medical students and professionals across India and beyond, and to help them achieve their career goals and make a positive impact in the field of medicine.

The program will help students to know about various international medical memberships such as MRCOG, MRCS, EFOG-EBCOG, and many others. It also helps them identify the right specialties and super specialties including Obstetrics & Gynaecology, General Surgery, Emergency Medicine, Internal Medicine, Paediatrics, ENT, Ophthalmology and others.

StudyMEDIC Campus Connect program will also cover various international career prospects of these medical memberships and fellowships. Educating and empowering the students remain the major goal of the StudyMEDIC Campus Connect.

OUR EXPERTS HELP YOU BECOME EXPERTS

StudyMEDIC has lined up the world's best panel of course directors and mentors to provide quality mentorship, which often remains a prime concern of every medical aspirant. Our expert who are renowned scholar in their respective fields, will hone student's skills and help them become experts in their desired medical specialization.

StudyMEDIC Magazine

FUTURE TO MEDICINE

StudyMEDIC magazine, launched in October 2022 with a tagline ‘**Future to Medicine**’ is a dedicated medical magazine which will remain as the best source of reference for all medical professionals and aspirants.

The magazine will have dedicated features and scholarly articles to help and support anyone pursuing various internationally acclaimed medical memberships and fellowships such as **MRCOG, MRCPI, MRCS, EFOG-EBCOG, FRCS, MRCP, MRCR, FRCR, MRCEM, MRCPCH, IBCLC, USMLE, PLAB, OET** and national exams like **MD, MS, MDS, BDS, DNB, FMGE, NEET SS, NEET PG, FET** and many more.

StudyMEDIC Magazine envisions creating a new mode of medical education by providing all information on the latest events and happenings in and around the medical realm. The ultimate aim of the magazine is to aid and support students with all information and make it as the best magazine any premier medical aspirant can rely on for pursuing their preferred course.

Along with the informative features like exam tips and tricks, StudyMEDIC Magazine will also have interviews with prominent figures in the medical field, success stories, expert columns, research papers and the like. Student’s Corner will have travel or achievement features highlighting the success of our champions.

In a nutshell, as its tagline ‘**Future to Medicine**’ says; the StudyMEDIC Magazine will remain as the best source of knowledge, information and updates on the happenings in the medical education.
