Transform Your Medical Tale with **StudyMEDIC**

e-Portfolio

StudyMEDIC e-Portfolio is a brand-new initiative by StudyMEDIC where aspirants are provided with a unique digital space to keep a perfect track of their learning and career advancements. Reflecting the NHS UK e-portfolio pattern, here aspirants can store and record a collection of evidence that demonstrates their learning achievements and clinical competencies. Whether you're a medical student, resident, or practitioner, this platform helps you track progress, showcase achievements, and advance your career.

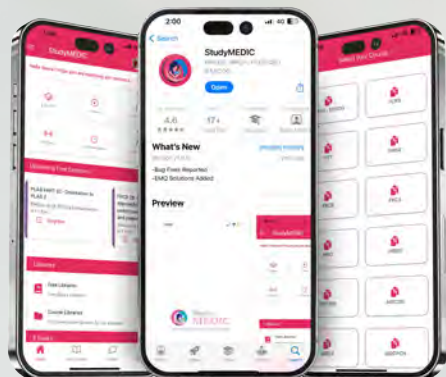

Why e-Portfolio?

- ▶ Opportunity to keep all documents together with the support of necessary learning materials, assessments, and resources through one centralized platform, helping aspirants to stay organized, save time, and focus on what matters most.
- ▶ Opportunity to participate in StudyMEDIC Clinical Training Programs that are closely connected with e-Portfolio, where aspirants can secure an extra edge in the journey of achieving different Royal College Memberships & Fellowships & European board programs.
- ▶ Opportunity to connect with peers, mentors, and faculty members and engage in discussions, sharing knowledge, and growing together.
- ▶ Opportunity to showcase aspirants' clinical abilities, aspirations, and accomplishments, helping them keep an extra edge while developing their CVs, preparing for interviews, and seeking job opportunities in the UK.
- ▶ Opportunity to be a part of lifelong learning by encouraging doctors to reflect on their own needs, clinical skills, and the needs of their patients.
- ▶ Students who are doing any course at StudyMEDIC can make use of this e-Portfolio to tell the world 'How well they are equipped with advancing their learning!'

Exposure to Premium Super Specialty Hospital Environment

- Training at top multi-specialty and super-specialty hospitals
- Exposure to cutting-edge modern medical equipment
- Real-world experience in advanced medical settings

StudyMEDIC Mobile App

- Mobile app with access to diverse medical study materials
- Multiple content formats: videos, summaries, podcasts, question banks, wisdom shots
- User-friendly interface with high-quality content for on-the-go learning

Attractive Stipend

- Financial support throughout the program
- Ensures financial stability during training

StudyMEDIC LMS

- Customized, secure Learning Management System for innovative digital learning
- Complete syllabi for various courses, preparing for membership and fellowship exams

Placement & Migration Assistance

- Comprehensive support in navigating international medical placements
- Assistance for a smooth transition to chosen destinations
- Guidance on global recognition of qualifications
- Support for establishing careers in various countries
- Career success stories of StudyMEDIC graduates who have established international careers

StudyMEDIC One Year Fellowship Program

As a pioneering Med EdTech firm, StudyMEDIC offers an array of one-year fellowship programs for a wide range of specialties such as Cardiology, Emergency Medicine, Radiology, Gynaecology, Pediatrics, Diabetology, Critical Care in OBG and so on.

The program, run as a combination of 9 months online and 3 months hospital-based hands-on training, is designed according to international medical education standards. It provides aspirants with a unique chance to improve their skills and knowledge in their dream specialties, enabling them to be ready to deal with the healthcare industry.

The fellowship program ensures career growth as it is CPD certified and comes with Continuous Medical Education (CME) points, which will add significant value to one's CV. Guided by industry experts and experienced mentors from StudyMEDIC, students will receive top-quality mentoring, making it the most advisable option for improving clinical skills and knowledge in one go.

Key Features of Our Fellowship Programs:

Combining front-line online education with hands-on hospital experience, our program offers:

- ▶ 9 months virtual learning + 3 months practical training
- ▶ International standards-aligned curriculum
- ▶ CPD certification with CME points
- ▶ Expert mentorship from industry leaders
- ▶ Rapid skill and knowledge enhancement
- ▶ Practice in multi and super speciality hospitals

Our Advanced Medical Fellowship Opportunities:

Fellowship in Cardiology

Fellowship in Ophthalmology

Fellowship in OBG

Fellowship in Pediatrics

Fellowship in Emergency Medicine

Fellowship in Radiology

Fellowship in Diabetology

Fellowship in High Risk Obstetrics

Fellowship in Orthopedics

Fellowship in Reproductive Medicine

- 25000+ of practice questions in our question bank
- 5000+ of updated case studies and clinical scenarios

E. Tech Support and Student Assistance

- 100% student satisfaction rate with support services

Listen to the Words of Our Advanced Clinical Training Program Champions

Dr. Nischal – MRCP

The clinical exposure I'm receiving is invaluable—from ward rounds, case discussions, and outpatient clinics to direct mentorship from experienced consultants. The mentors are approachable and supportive.

I am very thankful for StudyMEDIC's clinical program. I would highly recommend this to anyone aspiring to strengthen their clinical skills while preparing for the MRCP exams.

Dr. Hima Sindhu – MRCP

My experience with StudyMedic was good so far.. wherever we go home country experience is a must and this is the right platform for good clinical exposure in reputed hospitals to face the compilation.

Dr. Subba Raju – MRCP

Studymedic's advanced clinical training program for MRCP is a really good choice for doctors who are looking for a career progression along with hands-on clinical experience without any stress of competition and helps you pursue your favourite clinical branch in a very convenient and effective way . The staff is very effective in solving any problems that come along the way.

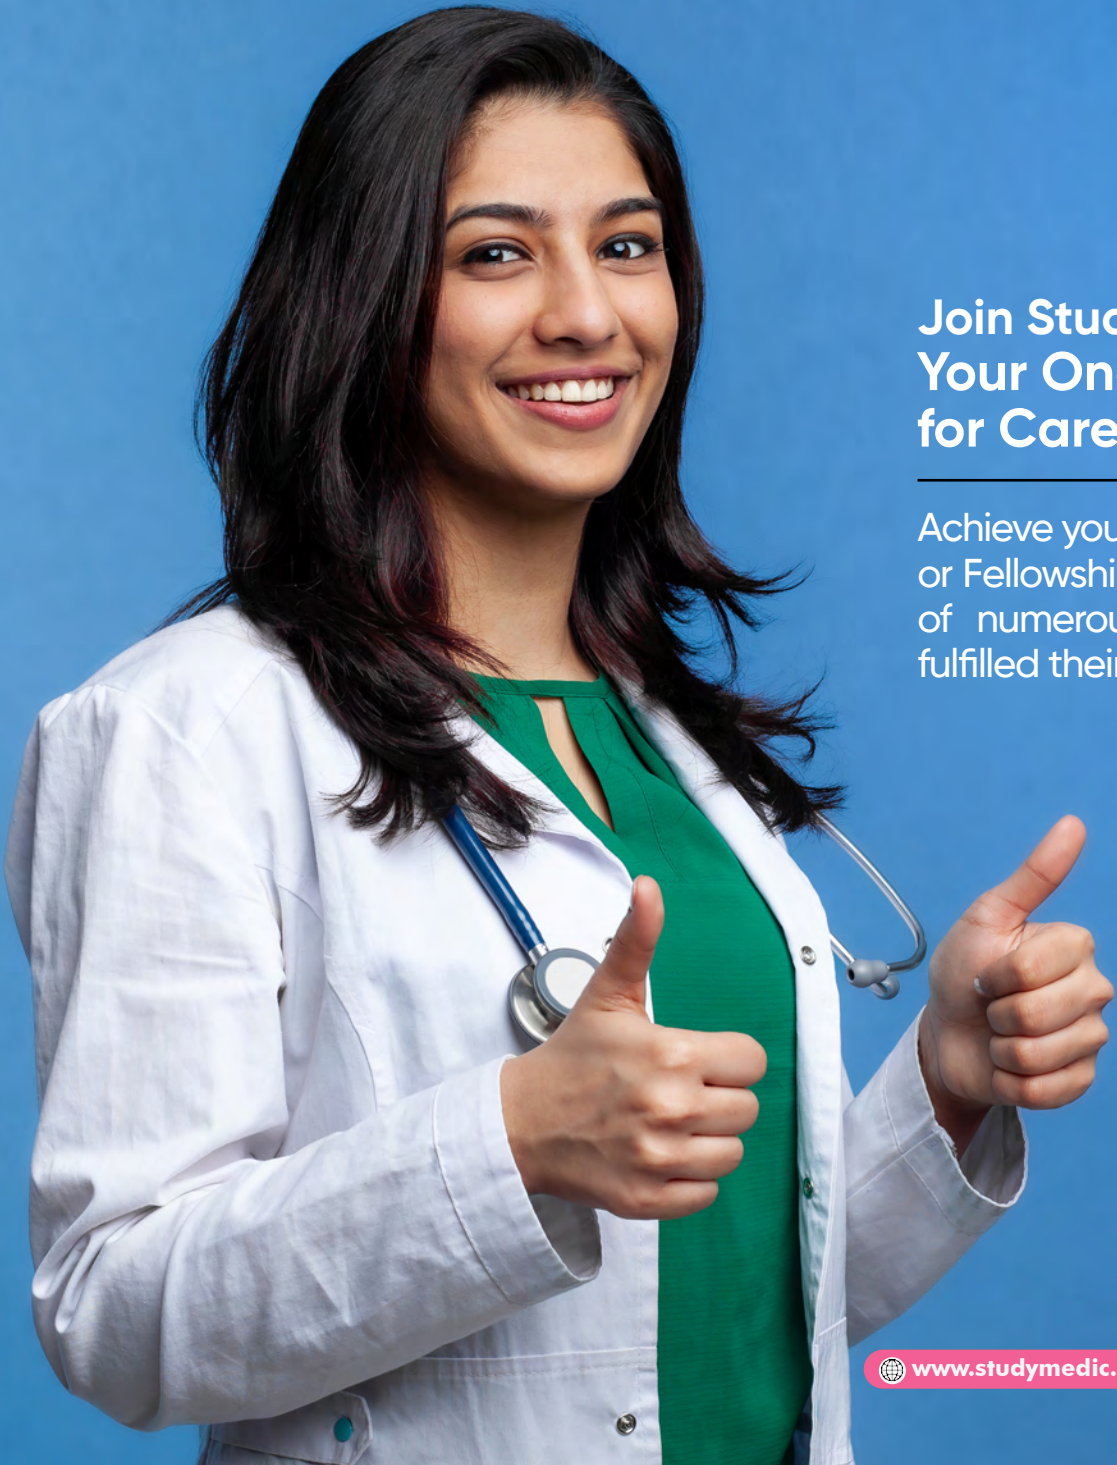

Dr. Manjari Roy– FRCR

The clinical support is seamless;directly learning from the consultants themselves is incredibly helpful. Mock exams and online classes give a clarity in what to expect in FRCR. Most importantly;this course is tailored to meet a peaceful environment at work without any sort of toxicity.It helps me to stay focused and enrich my knowledge.

Thanks to the entire study medic team for delivering me whatever was committed. Absolutely, StudyMedic is a reliable organisation!
